School project in Uganda

Issue: August 2025

Building a Brighter Future Together

Dear Friends,

Greetings in the name of our Lord Jesus Christ!

We are filled with gratitude and excitement as we bring you this latest update on the progress of Loved First School project in Uganda. By the grace of God and your continued prayers and support, we are moving steadily towards our vision of opening our doors to students.

Staff House Progress

Construction of the staff house has advanced significantly. All **plumbing pipe work** is complete, and the **electrical installations** have been successfully finalized. The **plastering phase** is done, bringing us one step closer to transforming this structure into a warm and functional living and administrative space. Initially, this building will also serve as **temporary living quarters for the children** as we continue developing the rest of the campus. Another staff house is already rising from the ground, and we're also almost ready to break ground on the classroom block! Soon, children will have a space to learn, grow, and thrive in a nurturing Christian environment.

Water Access & Infrastructure

We are thrilled to report that **two wells have been successfully drilled**, ensuring a sustainable source of clean water for both the school and the surrounding community. A **pump house** has been built, and a **chain-link fence** now secures the area for safety and protection. **Water lines have been laid**, bringing fresh water directly to the **school** and to the **community**, a milestone that not only supports our students but also uplifts local families. We are now eagerly awaiting the **installation of solar panels** to power the water system sustainably.

Agricultural Growth

Our **gardens and plantation** are thriving, a true testament to the blessings we've received:

- **Banana plantations** are lush and healthy
- **Cassava and sweet potatoes** are flourishing in the fields
- **Fruit trees** are maturing beautifully, promising nutrition for our future students

These crops not only contribute to the food security of the school but will also be part of teaching students the value of hard work and sustainable farming.

Looking Ahead: Welcoming Students in February 2026

If progress continues at this pace and with God's continued favor, we are prayerfully preparing to welcome our **first group of students in February 2026!** In preparation, we are now focusing efforts on **building one classroom**, which will serve as the first official learning space. The **staff house** will temporarily serve as student accommodation, ensuring a safe and nurturing environment as we continue to expand.

How You Can Help

As we approach this exciting phase, we still need a lot of your prayers, encouragement, and support whether through contributions, volunteering, or simply sharing our story with others who might want to partner with us.

Together, we are planting seeds of hope, faith, and education.

Thank you for walking this journey with us.

With grateful hearts,
The Loved First Team

We love because he first loved us.

1 John 4:19
